SECTION I - INTRODUCTION TO SB 8-75-S9	I-1
APPENDIX A - 2007 Listing of Book Set Components in National Stock Number (NSN) Order	A-1

NOTICE

This Supply Bulletin is devoted entirely to the Components of Book Sets for Medical TOE Units

SECTION I - INTRODUCTION

I-1. AUTHORIZATION

a. Authority for the acquisition of medical Book Set (BS) assemblages appears in the following types of authorization documents:

(1) Common Table of Allowance (CTA) 8-100, Army Medical Department Expendable/Durable Items.

(2) Bills of material for special purpose medical units when authorized by The Surgeon General (TSG).

b. The Commander, U.S. Army Medical Department Center and School (USAMEDD C&S) is responsible for determining the components of each medical book set assemblage. Medical book sets are cyclically reviewed every three years to coincide with the Medical Equipment Set (MES) or Medical Material Set (MMS) assemblage reviews and the updated book set listing is published in a revised DA SB 8-75-S9 edition.

c. This publication contains the Basis of Issue (BOI) for all medical book sets authorized.

I-2. BOOK LISTINGS

a. The Defense Supply Center Philadelphia (DSCP) assigns National Stock Numbers (NSNs) for each book set. NSNs are then incorporated and published in the Universal Data Repository (UDR) CD-ROM.

b. Appendix A identifies each book set by section/branch, title, author, publisher, price, and the number of copies required. For reference purposes, the listing of the component volumes is divided (or separated) by specific medical categories and is in NSN order.

c. Edition numbers and publication dates are based on the latest available information. The price of each book is subject to change without prior notice.

I-3. ACQUISITION OF MEDICAL BOOK SETS

a. Activities shall requisition (as required) book sets listed in Appendix B from DSCP, Philadelphia, PA. Book sets are authorized IAW CTA 8-100 BOI and are not listed as components of other assemblages. If required, Commanders may increase the number of text manuals within any specific book set as long as the required minimum number is maintained in the assemblage. Management of medical book sets is accomplished through normal supply and property accountability procedures.

b. Activities will submit requisitions to meet the following conditions:

(1) Initial Issue for Units. Station or Unit Supply Officers may requisition book sets as authorized by CTA 8-100.

(2) Security Assistance Program (SAP). The U.S. Army Medical Materiel Agency (USAMMA) will coordinate with DSCP for inclusion of appropriate book sets with major medical assemblages destined for an SAP country.

I-4. MAINTENANCE OF BOOK SETS

Units may update book sets and reference manuals as needed on an annual basis as reflected in the current DA SB 8-75-S9.

NOTE: An entire book set may not need to be purchased if individual books need replacing.

I-5. REPLACEMENT BOOKS

a. All active Army, Army Reserve, and National Guard Units requiring individual reference books to replace outdated or lost volumes (or as additions to book sets), may obtain such volumes by submitting requests to their supporting medical supply activity. Requests should always specify that the "Latest Edition" is required. For specific local procedures, the supporting medical supply activity should be consulted.

b. When purchasing replacement books, order the most current edition for those books that are published on a yearly basis.

c. When ordering Field Manuals (FM), Technical Manuals (TM), or any other Army publication, request the most current edition from the US Army Publishing Directorate (USAPD), Alexandria, VA, at their WEB site (<http://www.apd.army.mil>). Requests may also be routed through the unit's BN Administration Office (S-1).

d. CONUS and OCONUS medical supply activities may obtain individual medical reference books under one of the following procedures:

(1) Through the Government Purchase Card (GPC) - formerly known as International Merchant Purchase Authorization Card (IMPAC) – order through:

➤ DSCP Medical Emergency Supply Operations Center (ESOC) and Customer Service Center.

➤ Telephone DSN 444-2112 or Commercial 215-737-2112 (use *Option 1* to contact ESOC/Customer Service).

➤ Telefax: DSN 444-2666 / Commercial 215-737-2666.

Purchasing of book sets is through the Matthews Medical and Scientific Books, Inc., 314-432-1400.

(2) Through local procurement (*AR 40-61*, Section VI, Chapter 3, para 3-34). OCONUS Units/Activities have the option to submit a non-standard requisition, DIC A05, with exception data to DSCP, RIC S9M.

I-6. DISPOSITION OF OBSOLETE, UNSERVICEABLE, AND EXCESS MEDICAL BOOKS

a. Activities will dispose of obsolete, unserviceable, and excess medical books in accordance with Paragraph 2-12, *AR 735-17*.

b. Overseas activities may release obsolete, unserviceable, and excess medical books to host nation medical facilities.

I-7. POINT OF CONTACT (POC)

Any recommended changes to the components of the medical book sets will be submitted to the address show below. A justification for any change(s) must be provided in official memorandum format to:

US Army Medical Department Center & School
Directorate of Combat & Doctrine Development (DCDD)
ATTN: MCCS-FCO-MM
1400 East Grayson Street
Fort Sam Houston, TX 78234-5052
Telephone numbers are DSN 471-1260 or Commercial 210-221-1260
